

Peyote series

Designed by E-ggs, Italia

Designed by the Italian design studio e-ggs, Peyote is an elegant dining table with an organic design inspired by leaves and nature's ability to create new shapes. Peyote manages to be elegant yet bombastic at the same time, featuring a round, leaf-shaped base and perfectly floating table top, created in beautiful materials. The Peyote dining table is created in a combination of moulded veneer, MDF and plywood, which ensures stability and durability.

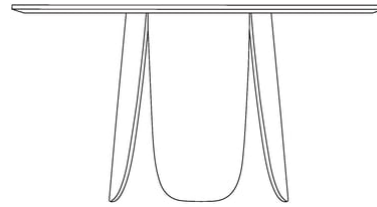

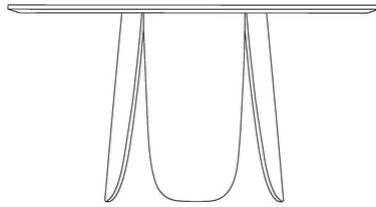

Meet the designer

We are an interdisciplinary design studio composed of different personalities, backgrounds and perspectives, which create a dynamic design process. We are inspired by our surroundings and the world we live in. Materials, structures, colours, forms and hidden details that pique our curiosity. All helping to shape every single design, which express different reflections and ideas. Our designs are therefore a direct result of the interaction that takes place. Between us and the designers and between us and the outside world.
