

## Peyote series

Designed by E-ggs, Italia

---

The Peyote coffee table combines natural and elegant elements, with the leaf-shaped base elevating the robust table top, creating an expression that appears floating yet extravagant at the same time. The Peyote coffee table is made of moulded veneer, MDF and plywood, ensuring a long life. Combine the coffee table with a side table in a different colour from the same series, or let the coffee table tell its own beautiful, natural story.

### Meet the designer

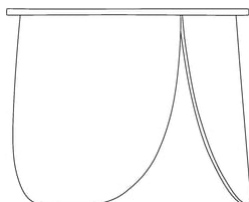

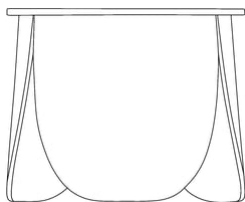

We are an interdisciplinary design studio composed of different personalities, backgrounds and perspectives, which create a dynamic design process. We are inspired by our surroundings and the world we live in. Materials, structures, colours, forms and hidden details that pique our curiosity. All helping to shape every single design, which express different reflections and ideas. Our designs are therefore a direct result of the interaction that takes place. Between us and the designers and between us and the outside world.
