The year of 2021 could very well be the best of pols potten yet. We have developed one of our most intricate, texturized, and cosy collections to date. The transition from 2020 to 2021 has never been more symbolic. We are stepping into a new decade, a new era, and more importantly, a new mindset. 2021 is the palate cleanser we've all been waiting for.

# 2021

Traditions are evolving, and so is pols potten. We've designed, developed, and curated a wholesome set of products for our annual collection. We've refined our processes, elevated our perspective, and have crafted our vision for the years to come.

Our family of things comprises of a multitude of forms, materials, and textures each with unique characteristics. We have expanded our range of fabrics with the introduction of a very cosy boucle which is available in five different colourways. The incorporation of the rust-like Corten steel infuses a high level of contrast within the collection from a material perspective, and the ever so elegant brown marble and smooth glossy surfaces bring a sense of class and sophistication into the mix. The multiple hues of green lend a fresh and earthy feeling to the designs, and to complete the palette we top it all off with a vibrant kick of a coral red.

The 2021 collection has been designed as a very comfortable vehicle to take you on a journey, a journey in which we are embarking on together.

Developing an annual collection is our way of moving forward with the times, changing the narrative, and creating a more wholesome experience for you, our community. We're sure you'll enjoy the pure cosiness and artisanal elements that we have created for you this year, and for years to come. We hope to see you very soon, and always remember: Be inspired, be unique, and be connected.
