

## Ivy / Lounge chair Design / Paola Navone

Translating a new outdoor living concept - a steel living area influenced by industrial design - Ivy is a collection of sculptural furniture with straight, formal lines. Soft, sinuous chairs pair up naturally with large dining tables. A defining feature of this collection is the steel mesh sheet interacting with voids and solids, achieving an effect of airy lightness. Imposing hollow forms, which merge with the surrounding nature, harmonise with the interwoven motifs in perfect balance.

### Description

Code: **585**  
Typology: **Armchairs**  
Collection: **Ivy**

Static Load: 200 Kg  
Cushion Material: Acrylic fabric

### Technical Info

Width: **110 cm**  
Depth: **90 cm**  
Height: **66 cm**  
Weight: **16.20 Kg**  
Static Load: **200 Kg**

### Packaging

Packages: **1**  
Pieces for pack: **1**  
Dimensions: **116x97x70 cm**  
Volume: **0.787 mc**

Polyethylene bag and cardboard box

Ivy / Lounge chair  
Design / Paola Navone

## Colors

23

Matt White

### Materials

#### **Steel**

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosion process.

**Maintenance:** To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.

### Cushion Material

#### **Acrylic fabric**

The 100% acrylic fabrics combined with a polyurethane internal coating. This step makes it water-repellent, highly resistant to UV rays for excellent outdoor performance.

**Maintenance:** To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax. Evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. In caso di utilizzo vicino al mare o piscine si consiglia un lavaggio periodico. Lavaggi frequenti: seguire le istruzioni specifiche per ogni materiale riportate sull'apposita etichetta. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolori. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione. Non utilizzare spugne abrasive per smacchiare e non trattare con candeggina e cloro.
