NORR11 LAUNCHES HIPPO LOUNGE AND DINING CHAIRS

Soft, playful shapes characterise this family of upholstered pieces, the Hippo makes a stylish statement in any interior setting. The Hippo Chair stands on two sturdy legs and a wooden profile connecting the seat and back which in stark contrast to the soft shapes is hard-lined and strong.

The Hippo series is influenced by the Hippopotamus mammal drawing upon its barrel-shaped torsos. The characteristic wooden leg profile comes in four different oak finishes; natural, light smoked, dark smoked and black and the seat and back come in variety of upholstery options.

The series is produced in FSC certified oak and comes with water-based lacquer. The upholstery options include OEKO-TEX and EU Eco Label fabrics and leathers.

“Hippo is the perfect contrast between soft and sharp and represents a bridge for NORR11 from our roots in wooden furniture to more playful and softer upholstered shapes,” says Magnus Berg Magnusson CEO of NORR11
