They say home is where the heart is.

A sanctuary from the humdrum of the world. Four walls that give us comfort and let us find peace of mind. A space for creativity and love to unfold.

But our home is so much more than that. It is a village, a city, a planet. Beautiful, diverse and fragile just like us.

No one lives like you.

A Design Collective

Behind every single design there is a beautiful and creative mind. At Bolia we collaborate with a brilliant stable of more than thirty talented designers. From the upcoming and vibrant talents to the established design studios and the world-renowned personalities. No matter, in what part of the world they live and breathe – they all share the same passion for Scandinavian design, natural materials and sustainable creations.

And just like the Scandinavian seasons, we're not afraid of change. That is why we give something back to the creative pursuit we all love so much, by inviting the new generation of designers to enter our annual Bolia Design Award. It is a pleasure for us to honor the most creative suggestions, and to give the winners an opportunity to become part of our future design collective. So, we continue to blur the lines of creativity and create the next chapter for New Scandinavian Design.

Sepia Sofa Series

Designed by Glismand & Rüdiger

The Sepia Sofa Series is both classic and sustainable – from the inside out and from start to finish. The solid wooden legs and frame don't just add an exclusive edge, they also add many years to your sofa's life. The cushions are available in two options: softer down filling or firmer cold foam. No matter which Sepia you choose to create, the inside will always be just as beautiful as the outside.

Handmade in Europe

Every wonderful design in our collection is made from nature's favorite materials and we are very selective about where and how every sourced material is produced. We don't just want to ensure quality at every turn, we also want to be satisfied with every piece, knowing it comes with a clear conscience, both ethically and environmentally. That's why our furniture designs are handmade by some of the finest craftsmen at certified manufacturers in Europe - and they all come with a 5-year guarantee.

Scandinavia Sofa Series

Designed by Glismand & Rüdiger

The Scandinavia sofa is a sofa classic designed by Glismand & Rüdiger. Its frame consists of solid wood from sustainable European forestry, while fabric cushions are upholstered on both sides, and the armrests have extra padding for superior comfort. Under the cushions you'll find an exclusive lining and a slightly elevated edge, which prevents the cushions from slipping off. The legs are available in several different materials and with two height options, while the cushions are available with both down and foam filling, and can be covered with wool, leather, velour or one of our numerous furniture fabrics. All resulting in a completely unique sofa, both in terms of production and appearance, and with a timeless quality that will be passed on through generations.

Ribbon Table – *NEW*

Designed by Metrica

A timeless table with a simple appearance, where extensive and impressive craftsmanship create the perfect finishing touches. The outside positioning of the legs creates extra leg space and there's a hidden secret inside the table top; an in-built extension leaf. A special mechanism ensures that Ribbon can reach its full potential – and size – in just one single, easy movement.

Cosima Modular Sofa Series

Designed by kaschkasch

The lounge sofa with room for all your dreams, crafted in sustainable materials from the inside out. With a penchant for an exclusive yet practical design, the result is a sofa with wide surfaces and large modules. The generous seat depth is an open invitation for late nights stretching out, and the robust wooden frame and large modules create the impression of a sofa that both feels soft to the touch and is created to last for many years.

Bella Bench Designed by Busetti Garuti Redaelli.

Noora Modular Sofa Series

Noora is a modular sofa with an elegant exterior and sustainable interior. Made by a combination of veneer and solid, sustainable wood from European forestry Noora is built to last. Two different seat depths and various colour combinations give you the freedom to create a sofa that matches your needs and wants and will fit your home tirelessly year after year.

Peyote Table - *NEW*

Designed by e-ggs

Designed by the Italian design studio e-ggs, Peyote is an elegant table with an organic design inspired by leaves and nature's ability to create new shapes. Peyote manages to be elegant yet bombastic at the same time, featuring a round, leaf-shaped base and perfectly floating table top, created in beautiful materials. The Peyote table is created in a combination of moulded veneer, MDF and plywood, which ensures stability and durability.

Kimono Chair - *NEW*

Designed by Pascal Bosetti

For modern Japanese people, the kimono is a symbol of thoughtfulness, grace and respect for tradition, which is exactly where designer Pascal Bosetti has drawn his inspiration for Kimono. The similarities between the chair and its source of inspiration are particularly evident in the seams on the seat, which add both a graphic look and separate the arms and cover from each other - just like a real kimono. Kimono is moulded and will therefore hold its characteristic curved shape for many years to come. The soft seat upholstery also means that your dinner parties will probably never make it into the living room.

Como Coffee Table Series

Designed by Glismand & Rüdiger

Simplicity and elegance are shaped and brought to life in various materials and sizes that unite Danish craftsmanship and Scandinavian design. Como features a table top in various organic materials such as solid oak, walnut, laminate, glass, marble and concrete and is available in different sizes and heights, enabling you to blend two together, create a unique material mix or focus on one material in a single colour. It's entirely up to you.

Orlando Modular Sofa Series

Designed by Glismand & Rüdiger

The Orlando is a modular sofa with plentiful details, especially evident in the crafted joints, where the backrest and seat cushion meet, complemented by the rounded, triangular legs, which make this sturdy modular sofa light and elegant. A sofa that is both thoroughly classic and entirely unique.

DT20 Series

Designed by Glismand & Rüdiger

The DT20 is a table of the highest quality. The solid table top made of solid wood can be extended to 440 cm, making it suitable for large living rooms and experienced epicureans. The legs are positioned on the outside to create more legroom and are assembled with mortise-and-tenon joints - a carpentry technique that emphasises the superior quality of this extravagant dining table.

Scandinavia Remix Sofa Series

Designed by Glismand & Rüdiger

Scandinavia Remix is a modern design icon created by Glismand & Rüdiger. The sofa's frame is made from solid, sustainable wood, and the double-upholstered cushions extend the sofa's life for many years. Under the slim cushions you'll find high quality lining and a sloping design that holds the cushions firmly in place. The legs are available in several materials and in two height options, and the cushions are available with both down and foam filling. It's up to you whether you want your Scandinavia Remix to be covered with soft velour, classic leather, recycled cotton, or another of our numerous furniture fabrics. The result is a classic sofa, where every tiny detail is precisely considered and executed.

Aura Sofa

Designed by Charlotte Høncke

Aura is a light and elegant sofa with neat stitching that shapes both the seat and back cushions in a geometric design language, creating a playful and inviting appearance. The high armrests and back cushions that frame Aura are upheld by the slender yet robust metal frame, creating a sharp contrast and adding a little extra edge to the design and your home.

Frame Table

Designed by Metrica

The Italian design studio Metrica has created an exclusive and unique table. Frame stands out as an exquisite combination of a solid wood table top - made from European oak with visible knots and high quality joining - and a raw metal frame, whose unusual lightness adds a new dimension to this type of dining table. Frame elegantly unites a wealth of details and a minimalist sensibility and can be extended with leaves at both ends so that you can set a beautiful table for all of your guests.

A Natural Choice of Fabrics

We are inspired by the nature that surrounds us - and with our furniture fabrics, we care for it as well. Our fabrics are IWTO and Oeko-Tex certified securing clean and safe materials, produced under social and environmentally sound conditions. And if you want to take your sustainable choice even further, we offer the beautiful Bergo fabric, made from recycled plastic bottles - and our durable Ocean fabric, produced solely from excess materials from the oil industry and manufactured without the use of water in the production. On top of this, all our leathers are traceable, securing top notch quality, produced under socially sound conditions and with a guarantee for animal welfare.

This makes our sofa covers and cushions both beautiful and sustainable choices.

North Sofa Series

Designed by Glismand & Rüdiger

North is an exclusive sofa series, where you can feel the focus is on attention to details. Both the ones you can enjoy with the naked eye, but also those that are hidden inside the construction - the ones that distinguish a good sofa from an outstanding sofa. North belongs to the latter category. All choices have been made with respect for the environment and excellent craftsmanship. That's why the cushions are brimming with genuine down, the wooden legs are crafted in solid wood, the armrests and frame filled with extra padding, the cushions are reversible, and all materials are sustainable.

A Sustainable Choice

Sustainability is the starting point for every new product. All the way from the design to the materials, packaging, transportation and to the final piece, we are making many sustainable decisions. But the one we believe matters the most; is designing beautiful products that are built to last for many years.

But we don't stop there. All Bolia wood is FSC certified and adheres to the EU timber regulation, securing the highest quality and sustainable foresting together with sound working conditions. Our leathers and fabrics also take good care of Mother Earth. Just like most of our rugs do - they are labelled with the Care and Fair-mark, securing proper schooling and medical care in production countries. Some of our manufacturers even use solar power to run their production facilities and dyeing water is reused.

We are on a thrilling and sustainable journey. Every day we make new sustainable choices - all the way from the beautiful minds of our designers to the coffee we serve in our stores.

Zoe Sofa Series

Designed by Metrica

Zoe has a neat and pared-back expression, especially exemplified in the cushions, which are joined to the base. It is a look that gives a unique lounge experience, with a sofa where comfort and stringency are combined to create a harmonious design.

Hill Table

Designed by kaschkasch

Sometimes you just have to go all-in. The Hill dining table comes from the minds of the Cologne-based designers kaschkasch. The handmade details are evident everywhere you look, from the rounded legs to the smooth contours of the table top and its visible joints. Hill is made from the very highest quality materials: the table top comes in solid oak sourced from sustainable forestry or with Italian Fenix NTM® laminate, which is made locally in Denmark. Hill is a sleek, aesthetic and solid table with flexible functionality, including extension leaves so that you can invite even more guests to join you at the table.

New Coney Table

Designed by Glismand & Rüdiger

With New Coney, we have thought about everything: The extra leaf can be concealed in the table and the table is dimensioned in a way that, when fully extended, it fits 10 people without anyone having to sit at a leg. The frame is solid wood and legs can be unscrewed without the need for any tools.

New Mood Series

Designed by Michael H. Nielsen

The New Mood collection contains dining tables, coffee tables and a sideboard, which are all available in a variety of carefully selected wood types and laminate colours. Designed by Michael H. Nielsen, the collection was inspired by 50's design, yet the creator has added modern characteristics such as the combination of wood types that are always present in the legs.

Caisa Modular Sofa Series – *NEW*

Designed by BÖTTCHER & KAYSER

Caisa is a modular sofa with a refined and elegant look. The simple silhouette and unique details of the design have references to the very essence of Scandinavian design. The minimalist look is reinforced by elegant legs that create a luxurious weightlessness for the voluptuous modules. The armrest cushions are available in two depths, which divide the sofa into different sections and seating areas, and this flexibility and spaciousness make the modular sofa ideal for any home, office, hotel or lobby.

Saga Armchair

Designed by Anna & Signe

The Saga Armchair makes a slightly selfish addition to your living room, as its incredible comfort and welcoming expression mean you really won't want to share Saga with anyone at all. Saga has a moulded design, which means the seat cushions and backrest won't change shape over time. Saga is an incredibly beautiful piece of furniture that is pleasing to the body, mind and conscience and which finds its own way back to its place in the living room with one graceful movement.

MR. BIG Modular Sofa Series

Designed by Says Who

MR. BIG is a decorative and extravagant modular sofa, combining iconic aesthetics with robust materials. The numerous cushions are included in the price and serve to elevate the aesthetics to new heights and complete the exclusive appearance. The different modules, furniture fabrics and colours give you the freedom to put together your very own MR. BIG. Regardless of which choices you make, there will always be two constants: the 112 cm immense seat depth and the extensive quality control all our sofas undergo.

Balance Table

Designed by Michael H. Nielsen

The Balance dining table, designed by Michael H. Nielsen, unites bombastic lines and design language with elegant and organic materials. The strong legs function as a solid foundation for the heavy and distinctive marble table top, which is broken up by the solid wood extension leaf.

Jalou Console - *NEW*

Designed by Caurier & Conçalves

Jalou is an elegant and floating console that makes everyday life easier by storing wires and mess away. The elegant slats are made of solid wood but are lined with fabric to facilitate the movement that reveals a split storage compartment. There is a concealed panel on the table top that reveals a cable compartment for storing wires and other stray items.

No One Lives Like You

Our designs are made for the picky, the choosy, the quality conscious and the socially aware. Because that's our whole philosophy right there; Our designs are tailor-made just for you by some of the finest craftsmen in Europe. You can have each design however you want it, by choosing your favorite model in the perfect size. Made from your preferred sustainable material in the most beautiful fabric and color.

Available in a thousand ways, and that one special way that fits you. Only you.

Graceful Table - *NEW*

Designed by Michael H. Nielsen

The designer Michael H. Nielsen designed Graceful based on the idea of 'less is more'. And this can clearly be seen and felt. The level of detail is kept to a minimum to allow the table to speak its own distinct language. The worktop has an unbroken surface to emphasise the clean appearance, but a comprehensive technical knowledge is concealed beneath the surface, which is necessary when such a stringent dining table is to function successfully in practice. Graceful is made from solid, FSC-certified oak and produced in a green factory where everything is either recycled or reused.

Tune Chair

Designed by Henrik Sørig Thomsen

Tune means to correct the pitch or adjust, and that is exactly what Tune does - in both form and function. The idea behind the design is simple; to create a chair that releases space in a room instead of consuming it. The chair's slim and elegant frame with durable construction means Tune dining table chairs have the unique ability to be stacked.

Built to Last

Sustainability is the starting point for every new piece. All the way from the design to the materials, packaging, transportation and to the final product, we are making many sustainable decisions, but the one we believe matters the most; is designing beautiful products that are built to last for many years. That is why our furniture designs are made by hand at some of Europe's finest manufacturers and are rigorously tested in collaboration with Bureau Veritas in Germany, the world's leading quality certification agency. Every single design in our collection come with a 5-year guarantee - because they are built from love and built to last.

Angle Modular Sofa Series

Designed by Says Who

Angle is a modular sofa consisting of six different building blocks you can combine, couple and colour as you like - the result will always be surprisingly eye-catching. With its characteristic asymmetrical, angled lines and soft, organic feel, Angle will fit perfectly into both small and large spaces.

Loyal Table - *NEW*

Designed by Vera & Kyte

The Loyal dining table is designed by the Norwegian design duo Vera & Kyte, taking inspiration from the shaker style to create a classic dining table in solid FSC-certified oak. The specially balanced design of the legs and table top gives the table top a light expression, while the solid wood adds some weight to the design.

Fuuga Sofa Series

Designed by Buseti Garuti Redaelli

Fuuga is designed by Buseti Garuti Redaelli with an oval and soft design language inspired by organic shapes. The back is rounded and meets the armrests in a sloped finish, giving Fuuga its distinctive look. The design experience is completed by a balance of stringency, inviting curves and wood craftsmanship in the base as well as the handcrafted details and natural materials.

Designed by Studio Gud. Rotate Pendant.

Grace Sofa Series

Designed by Yonoh Estudio

Grace beautifully unites good craftsmanship and exceptional comfort with a soft design language inspired by the 1970s. The organic shapes have been sharply cut and the details are decorative but kept to a minimum to let the sofa express itself as it is, year after year.

Pleat Chair – *NEW*

Designed by Steffensen & Würtz

Pleat is inspired by the exclusive, all-embracing atmosphere that characterises large hotel lobbies, where heavy, draped curtains frame the high rooms. The Danish design duo Steffensen & Würtz have given this atmosphere new life in Pleat. A simple, sleek frame enclosed in a padded seat and back cushions in velour creates the perfect setting for an evening with many hours of cosy socialising. For a simpler look, it is also available without upholstery on the seat.

NEW Pleat Chair in Novel, Light Grey. Designed by Steffensen & Würtz.

Cloud Sofa Series

Designed by Yonoh Estudio

Simplicity is the keyword in this sofa series designed by Yonoh Estudio. Clean lines are lifted from the ground by a solid metal frame that gives Cloud a minimalistic look while creating a comfortable starting point for you to lean back and hit the pause button for a moment. On the inside, Cloud is constructed in FSC-certified wood, lifting Cloud to all new heights.

Cosy Modular Sofa Series

Designed by Glismand & Rüdiger

The Cosy Modular Sofa fuses voluminous and simple elements with good quality. The skilled craftsmanship details can be seen in the solid wood base and in the fabric frame, where the stitching is deliberately visible to create an exclusive look. The slender legs are supported by a steel frame, making Cosy light, but still robust. The result is an exclusive sofa with a classic look.

Sharing Creativity

Everything we do starts with a curious mind. All the way from how our collections come to life, to the good people we team up with along the way. We love building new creative constellations with like-minded friends from the world of design, art, fashion, music, fine dining and architecture. Because we believe that sharing creativity will make our world an even better and more fun place to live in.

We have made a furniture collection together with the urban fashion brand, Soulland. We have explored creativity and produced music videos together with the multi-talented artist and composer, Oh Land. We have supported upcoming artists through a collaboration with HEIMA art refuge in Iceland, and we have even climbed Mount Everest together with Danish mountaineer Jakob Urth, to see the world from a fresh new perspective.

This year we are launching a collaboration with the world-renowned coffee brewers, La Cabra and we are serving the delicious result in our stores across Europe. We explore workspace transitions together with our professional friends from Steelcase, the world's largest office furniture company. And we are teaming up with talented DJ's and sharing our productions through Sofa Sessions, upbeat Mixtapes and much more. Because with creativity, we would love for you to take some of ours - and make it yours.

We'll Love to Meet You

Just like people, countries and cultures are all extraordinary, one-of-a-kind creations. The inspiring and growing universes we call stores are all unique spaces of inspiration, calmness, creativity, design and with beautiful references to the diverse Scandinavian nature. A friendly place where you can feel at home, kick back, put your feet up, enjoy a nice cup of organic coffee, close your eyes and let your creativity flow freely.

We'll love to meet you, listen to your design stories and share our finest piece of advice. Nothing will make us happier than helping you discover the sofa of your dreams.

You can meet both us and our new collection in our concept stores located in main cities across Europe. Or you can simply shop online, and we'll deliver your new designs straight to your lovely home, no matter where in Europe you live.

Welcome inside a Scandinavian universe of creativity and design.
