Sofa by day | Bed at night

Space saving designs for your home

“Innovation Living™ is a Danish furniture company built on the proud Danish tradition of furniture design.

We believe that form and function must go hand in hand to create innovative durable designs for everyday use.

We have dedicated ourselves to the design and development of multifunctional sofa beds, and today we are proud to be able to call Innovation Living™ an internationally renowned sofa bed specialist.”

Enjoy our 50 year anniversary collection.

Per Weiss,
Chief Design Officer

Embedded in our DNA

Since the launch of our “THE NATURAL CHOICE” collection in 1989 we have been dedicated to a specific set of values in our design process.

Maintain & refresh

Designing for flat packing means we create parts that easily combine into a full product. By doing so we also obtain the possibility of maintenance and renewal of parts.

Disassembly & recycling

In our design process we focus on the ability to disassemble the products for recycling. Which materials are used, how they are combined, and how they are separated into individual parts and sorted for recycling after ended life cycles. Each design creates a new challenge and some designs are more suited for disassembly than others, but the ECO-dimension is always an integral part of our way of thinking.

5-year limited warranty

Durability means sustainability

We conduct systematic testing via accredited independent laboratories such as SGS, Intertek and Bureau Veritas, and have no concerns in offering 5-year limited warranty.

See further information about the warranty on our website.

Detachable, washable & renewable

In Collection 2021-2022 we have increased our focus on detachable covers as this option makes it easy to choose more delicate textiles and offers the ability to renew the cover at the end of its life cycle. Simply remove, wash, and put the cover back on again - or replace with a new cover to refresh the look of your sofa.

Lower CO₂ footprint

We have always loved the simple and logic arguments for flat packing.

The low volume packages reduce the risk of damages, lower costs and reduce CO₂-emissions during transportation and storage.

Flat packed furniture is great for access, and in-home assembly means increased value as it eases handling from the store to the living room.

We continuously strive to reduce the impact our products have on nature.

Besides flat packing, we have reduced the use of plastic with more than 25% as well as having changed to more sustainable packaging alternatives.

We are not CO₂ neutral, but we keep working hard to minimize our CO₂ footprint.

Give back to Nature

To contribute to the balance of the global ecosystem Innovation Living™ plants 10.000 new trees every year to compensate for our consumption of wood.

Comfort is always at the center of our design process

The definition of good comfort is individual, some prefer a firmer comfort, some prefer a softer comfort. We constantly strive to ensure that our assortment will be able to offer the comfort that suits you

The aesthetics, size and functionality of the sofa define the comfort challenges for each design. The slender and elegant designs will have fairly slim upholstery and tend to have more firm comfort, whereas the heavier designs will make room for more upholstery and often be with a softer comfort. This calls for different constructive solutions for each design. However, the goal is always the same; we must develop durable upholstery solutions that offer good seating as well as sleeping comfort.

The good comfort – how it is designed

Pocket Spring

The individual pockets in these models ensure that pressure is applied to each individual spring for better support – in seating as well as sleeping position. The high resilient foam casing contributes to a breathable mattress while providing a soft top support.

The following models have this comfort:

Cassius Quilt Deluxe, Conlix, Muito, Pricilla, Recast Plus, Unfurl, Unfurl Lounger & Zeal.

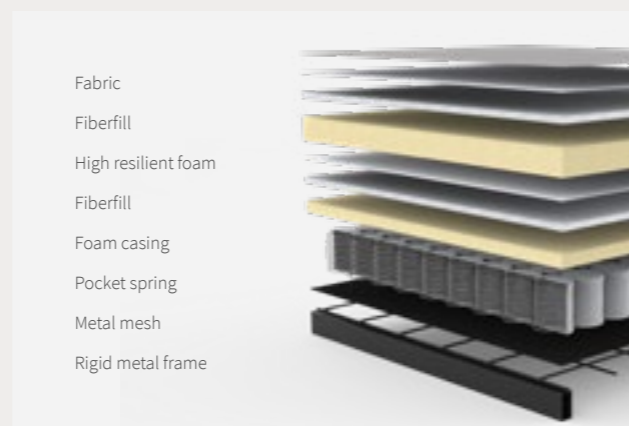

Pocket Spring Dual

The Pocket Spring Dual comfort share the general composition of the Pocket Spring models apart from the extra layer of hyper soft foam that gives these sofa beds an extra soft feel. This extra layer of luxury provides a soft seating comfort as well as a mattress recommended for everyday sleeping.

The following models have this comfort:

Walis, Malloy, Dublexo, Frode, Cornila, Osvald & Tripi.

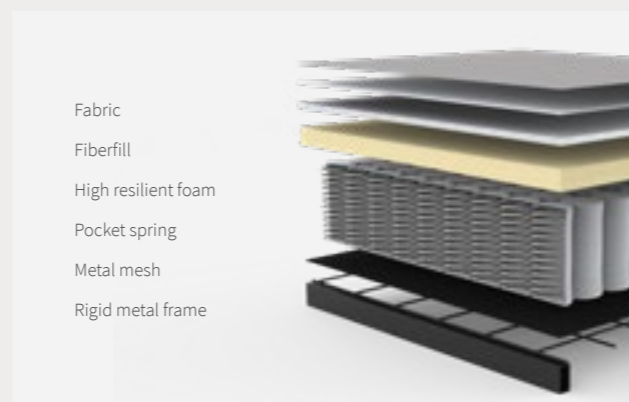

Excess Pocket Spring

The higher coils in the Excess Pocket Spring models provide a softer sofa comfort. In combination with the core foam casing, the Excess mattress has higher absorption of pressure on each spring for a more comfortable sleep.

The following models have this comfort:

Cassius Deluxe Excess Lounger, Grand Deluxe Excess Lounger, Long Horn Deluxe Excess Lounger, Ran Deluxe Excess Lounger, Supremax Deluxe Excess Lounger.

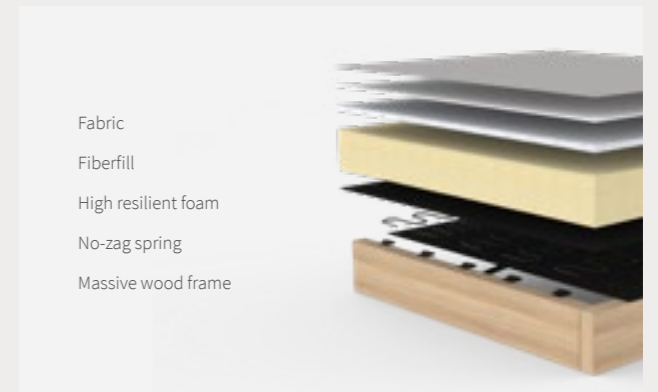

No-zag Spring

The No-zag Spring provides an even and soft comfort ideal for sofa seats and backrests. The thick layer of high resilient foam enhances the comfort of the spring to ensure a great sleeping experience as well.

The following models have this comfort:

Cubed 02

Dual Memory

The Dual Memory mattress features two comforts in one as the mattress is reversible with one side consisting of an 3 1/4" high density foam whilst the other side consists of 1 1/4" Oeko-Tex certified memory foam. Whether you prefer soft or firm comfort this mattress offers both. Further, the cover is removable and can be washed at 140° F / 60° C.

Available for: Eivor & Killian

Pillow toppers

Pillow toppers

47" / 55" / 63" x 79".

A 2" durable and reversible pillow topper with a core of 55 lbs polyether foam that provides an even and supportive resting surface on all adjustable sofa beds. Cover is 100% polyester which is breathable, removable and machine washable at 140° F / 60° C.

Storage wrap

The pillow topper comes with a wrap for easy storage when not in use. The wrap helps minimize the volume of the topper for better storage.

Fabric specifications

We place high value on ensuring that our fabrics all match the high quality of the design as well as durability of our sofa beds. All fabrics are enhanced with additional backing for extended life time and undergo rigid testing to meet the high standards we impose on our designs and production. In accordance with our Planet Promise we ensure that an increasing selection of fabrics are Oeko-Tex® certified.

For detailed product information please scan the QR code.

Flammability:

Innovation Living™ products meet the flammability requirements of California Bureau of Household Goods and Services, Technical Bulletin 117-2013 and 16 CFR 1632.

No added flame retardant chemicals/toxins known to the State of California to, or strongly suspected of, adversely impacting human health or development have been used in our products.

Global presence

As a leading, global specialist within our category with production and warehouse facilities in Denmark, Ukraine, China and the United States and with distribution in more than 83 countries, we have a great responsibility to adapt to but also influence local norms.

We buy raw materials directly from the sources to be in control of the origin and quality of the materials we use as well as we ensure proper working conditions for our own and our suppliers employees.

INNOVATION LIVING™

amfori BSCI - Code of Conduct

It has always been our priority to give our employees the best possible working conditions. Long before audits were made as we know them today, we engaged in the development of local communities by actively hiring minorities and support the training of refugees and students.

We are anchored in the Danish culture where everyone is equally valued regardless of background or position. Today, our production facilities in Ukraine and China are continuously audited against the amfori BSCI Code of Conduct to ensure transparency and good conditions for those who support and work for us and our suppliers.

People & Partnerships

Since our founding in 1971 we have been an independent, family-owned company. The founding value of the company is respect. Respect towards colleagues, customers, and the environment.

We believe that happy employees in combination with good and long partnerships with suppliers and customers are the keys to success.
