Un double cursus : l'École Nationale Supérieure des Arts Appliqués et des Métiers d'art, et les Arts décoratifs de Paris. En 2002, il signe l'architecture intérieure du restaurant Sketch à Londres qui assure sa notoriété. En 2007, Maison & Objet en fait le créateur de l'année «Scènes d'intérieur». La souplesse, la fluidité, les formes naturelles lui inspirent un vocabulaire organique, qu'il décline au gré du mobilier qu'il signe pour Ceccotti Collezioni, Zanotta, Cinna... et des espaces qu'il aménage : le restaurant Senderens à Paris, le Maya Bar à Monaco, la galerie BSL à Paris ou, prochainement, le restaurant «le ciel de Paris» au 56ème étage de la Tour Montparnasse. Lauréat de «L'Empreinte de l'Année» des «Talents du luxe et de la création 2010».

### ARIK LEVY POUR FORESTIER

Bamboo est une collection poétique entre nature et design.  
Un parti pris de matériaux naturels et authentiques sublimés  
par le travail des artisans.

Une déclinaison de luminaires pour une lumière douce  
s'adaptant aussi bien à l'intérieur qu'à l'extérieur.

*Bamboo, a poetic collection between nature and design  
A bias of natural and authentic materials enhanced by the  
work of craftsmen.*

*A declination of light fittings for a soft light suitable for both  
indoor and outdoor.*

### ELISE FOUIN POUR FORESTIER

La suspension «Satélise» est réalisée en fils de rotin twistés pour obtenir l'effet graphique d'une rosace rappelant le mouvement périodique de la trajectoire d'un objet en orbite autour d'un astre.

**Existe en 3 dimensions environ : 50 cm, 65 cm, 105 cm, naturel, blanc et bleu marine.**

*The « Satélise » pendant light is realized with twisted thread of rattan to obtain the graphic effect of a rosette, reminding the periodic movement of the trajectory of an object in orbit around a celestial body.*

## ELISE FOUIN POUR FORESTIER

### Suspension Papillon

«C'est en visitant la fabrique d'abat jour de la marque que l'inspiration pour la suspension Papillon est née. Toute la légèreté de ce luminaire est obtenue par la superposition de 3 carcasses. Les fils de métal de chacune d'elles sont multipliés puis vrillés pour obtenir cet effet graphique et cinétique rappelant celui du battement d'aile d'un papillon.»

**Existe en Noir - Bleu Gris - Bleu/Vert/Blanc - Blanc - Cuivre rosé  
Taupe métallique - Champagne**

*«While visiting the factory of lampshade of the brand the inspiration for the suspension Butterfly was born. All the lightness of this lamp is obtained by the overlapping of 3 carcasses.*

*The metal threads of each frame are duplicated, then twist to obtain this graphic and kinetic effect reminding the flapping of butterfly wings»*

## TALISMAN

Inspirée par les Himmeli, ces ancestrales petites constructions géométriques faites de pailles de seigle qui portent chance et décorent à Noël les maisons scandinaves, la créatrice Ukrainienne Kateryna Sokolova a imaginé pour Forestier cette toute nouvelle série de luminaires : Talisman...

Dorées et enchâssant des éclats de lumière tels des pointes de diamant, les architectures géométriques de cette nouvelle collection de lustres sont de véritables bijoux pour la maison, des parures scintillantes à suspendre comme des talismans.

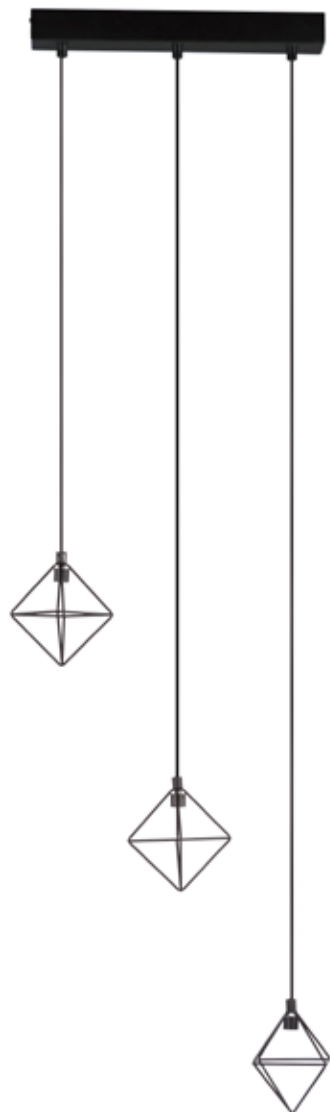

Talisman se décline en quatre modèles : Himmeli, Pavuk, Pajak et Puzurs, quatre pendentifs à combiner en lustre géant de légèreté ou en simple suspension ultra fine...

*Inspired by Himmeli, the traditional geometric mobiles made from rye straw which bring good fortune and decorate houses in Scandinavia at Christmas; the Ukrainian designer Kateryna Sokolova has created a whole new range of lighting for Forestier : Talisman...*

*Its delicate gilt structure encases tiny diamond lights, and the architectural design of this new collection of pendants brings a touch of jewellery to your home, a sparkling ornament to hang up as you would a talisman. Talisman is available in four styles,*

*Himmeli, Pavuk, Pajak and Puzurs, four lights to hang together as a large, airy cluster or as a single, ultra-fine pendant...*

### ARIK LEVY POUR FORESTIER

Au travers des collections Bodyless et Antenna, je renoue avec l'ADN de Forestier. Avec le fil de fer comme point d'ancrage de la marque, j'ai dessiné des luminaires aux formes aériennes, structurées et épurées.

*Thanks to the Bodyless and Antenna collections, I revive with Forestier's identity: with metal wire as anchorage point of the brand, I drew lightings fixtures with structured and pure design.*

They also meet the REACH, ROHS, ERP... standards.

They also comply with the delegated regulation (UE) N°874/2014 from the 12 July 2012, that complete the 2010/30/UE directive from the European Parliament and from the Council regarding the lighting's energy labelling.
