BREAK THE SILENCE

Break the silence, metafora del cambiamento come percorso per il miglioramento della nostra vita, perché non esiste un tempo in cui è troppo tardi per decidere di essere felici.

Break the silence, a metaphor for change as the path to make our lives better, because it's never too late to decide to be happy.

TRILUNA

design debonademeo

Gli evocativi e mutevoli volumi delle fasi lunari sono fonte di ispirazione della famiglia di sospensioni modulari "Triluna" a firma Debonademeo.

La sfera e le sue derivazioni in leggero alluminio bianco celano all'interno la fonte luminosa, che diffonde nell'ambiente soffuse e poetiche sfumature.

The expressive and dynamic shapes of the moon's phases are the inspiration for the collection of modular ceiling lights, "Triluna", by Debonademeo.

The sphere and its branches in lightweight white aluminum, conceal the light source inside, diffusing soft, poetic shades throughout the room.

CHANDELIER

BEAUTIFUL MESS

design

Dalla creatività dissacratoria di Marcantonio è nato "Beautiful mess", chandelier dalla silhouette destrutturata, ottenuta mixando forme, materiali e stili, tra arte e design. Bracci in vetro di Murano con rosette e bobeches in cristallo si accostano a una lanterna a petrolio, una abat-jour, una campana di vetro, una lampada a braccio flessibile e una barra di neon anni 80.

Nella mischia non mancano dei piccoli "intrusi", come un pesce guizzante in ceramica e un cuore al neon rosa, nota di colore nel total white.

From the irreverent creativity of Marcantonio comes "Beautiful mess", a chandelier with a deconstructed shape, made using a mix of forms, materials and styles, between art and design.

Murano glass arms with crystal rosettes and bobeches, paired with a petrol lantern, a bedside lamp, a glass bell, a lamp with flexible arm, and a 1980s neon bar.

The mix has no shortage of little "intruders" like a fish splashing around in ceramic, and a pink neon heart, a note of colour in total white.

COBU

design **edmondo testaguzza**

Cobu non è un Cubo, è la sua scomposizione: un involucro di cemento materico, forte e protettivo, che racchiude un prezioso cuore metallico patinato dal quale si propaga un doppio fascio luminoso.

Due componenti, in apparente contrasto, compongono un insieme in perfetto equilibrio armonico.

Cobu è camaleontico e, se tinteggiato del colore della parete che lo supporta, diventa mimetico: poesia capace di generare luce.

Cobu is not a Cube, it's the deconstruction of a cube: a strong, protective case in textured cement enclosing a varnished precious metal heart that emits a double light beam.

Two apparently contrasting parts that come together to create a perfect harmonious equilibrium.

Cobu is like a chameleon and, if you paint it in the colour of its supporting wall, it becomes camouflaged: poetry that can create light.

MARCANTONIO

Rispecchia gli stati d'animo di Marcantonio, la lampada Moony che si plasma sulle emozioni grazie al braccio flessibile. Si erge verso il cielo stellato o si piega su di sé per i momenti di riflessione.

Moony by Marcantonio reflects his many moods, moulding over emotions thanks to its flexible arm, either pointing up towards the stary sky or benting on itself for a more reflective mood.

ULULÌ-ULULÀ

design **matteo ugolini**

La forza evocativa della luna si trasforma in sospensioni e lampade da terra.

Globi di vetroresina bianca, diventano un luminoso e poetico oggetto d'arredo.

Sospese, appoggiate a terra o in mezzo a un prato, Ululì e Ululà prendono vita e, quando illuminate, creano calde tonalità ambrate.

La versione small (Ululì) e quella large (Ululà), sono disponibili in versione indoor ed outdoor.

The evocative power of the moon transforms into suspensions and floor lamps. The white fiberglass sphere becomes a bright and poetic piece of furniture. Suspended, placed on the ground, or in the middle of a field, Ululì and Ululà comes to life when lighted on, creating warm amber tones. Small (Ululì) and large (Ululà) versions can be used indoor and outdoor.
