

FRAMES

by Anna Ohmsen & Emma Bukhave Vidarsson

Frames is a dynamic pendant which can transform from a 2-dimensional appearance to a 3-dimensional object. We live in a time where more lightning has become digitally adjustable. Frames is a manually counter reaction to the digital world. With the manual rotation you can create different light settings and change the expression of the design. In other words Frames creates a dialogue between you, the design and its natural material. Unfolded Frames creates an intimate and mute light setting while the light becomes sharp when flat packed. In the daylight the pendant appears as an aesthetic sculpture, which gives a beautiful addition to your home.

Product facts:

- FSC Design Awards in 2018
- Mad og Bolig Design Awards in 2018
- Flatpacked.
- 19 frames of solid oak
- Made from FSC certified oak in Latvia.
