German designer Theresa Rand was experimenting with ways of combining a table and storage when she stumbled upon the idea of a lid that opens by rotating it around one of the legs. The result is elegant, unpretentious and utterly addictive (show it to guests and they will be opening and shutting Turning Table for hours). "My design is quite functional," says Theresa. "But I also think it's important that the objects we surround ourselves with have a warm and poetic part."

About the Designer

Born in Germany, Theresa Rand graduated in 2013 from The Royal Danish Academy of Arts. As a student in Copenhagen she fell in love with the city and the Danish tradition in furniture design: 'My plan was to go to Berlin after my studies, but I find Copenhagen very inspiring, so I stayed.' Swiftly establishing a reputation as a design talent to watch, Theresa Rand makes practical furniture, to be used every day, with soul: "I think I design in a quite 'German' way. I am very pragmatic, but I also think it's important that the objects that we surround ourselves with have warmth and poetry."
