White Marble

Rose Marble

A tribute to the beauty of marble, MENU's Plinth series is extended with the addition of rose-coloured marble: Calacatta Viola is an off-white marble with striking purple veining. Equal parts beautiful and timeless, the marble plinth is a sculptural piece in its own right, as well as a sophisticated platform for whatever objects rest upon it. Designed by Norm Architects, Plinth comes in cubic, tall, and low versions in a range of colours: black, white, brown-grey and rose.

The plinth has long been a much-mused-over object. In collaboration with MENU, Norm Architects set out to rethink its uses and to reveal the natural beauty of marble. The result is a series of multifunctional podiums for the home, office or showroom. Handcrafted in Portugal, each piece of marble is carefully selected and shaped into three perfectly aligned forms: a low rectangular version ideal as a statement-making coffee table; a cube perfect as a bedside or side table; and a traditional plinth on which favourite objects can be displayed. The sharp, clean silhouette of each plinth stands in striking contrast to the unique veining of the natural, light-reflecting marble.

About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialises in residential architecture, commercial interiors, industrial design, photography and art direction. The company name highlights the importance of drawing inspiration from norms and traditions within architecture and design—in particular the Scandinavian design principles of timeless aesthetics and natural materials, and the Modernist values of restraint and refinement. Together with MENU, Norm Architects create design that unites great materials and craftsmanship, while embodying beauty, tradition and timeless simplicity.

Plinth

Production Process

2cm thick marble plates are cut and edges are milled in 45 degree angles - all five plates are then glued together in miter joints. Corners are reinforced by reusing excess marble from the production. Bottom plate is made from MDF, where the adjustable glides are fastened.

Materials

Black Marquina Marble
Grey Kendzo Marble
White Carrara Marble
Calacatta Viola Marble
